

Calculate volume & surface area...

CALCULATION MODE

☐ Raster (quick)

☐ Raster + triangulation

☐ Use existing surface (meshes only)

☒ Raster (mesh) (e.g. for Cut & Fill volume calculation)

OUTPUT

☒ Volume

☒ Surface area

☐ Volume function chart (output as CSV file)

PARAMETERS

Reference plane:

Base mesh:

☐ Polyline:

☒ Create Cut & Fill volume

Reference mesh:

Threshold [m]:

☒ Create volume(s) as triangulated mesh ☐ Run "Surface comparison"

Raster size [m]:

Filter mode:

Level output:

Stepwidth [m]:

☐ Start/Stop chart calculation at reference plane
